BY YOUR SIDE

INTRODUCING THE NEW 330RGS CARBIDE

Developed by Dr. Richard Stevenson, the 330RGS carbide is a must have for conservative amalgam and composite preparation and is ideal for dental board examinations and dental school practices.

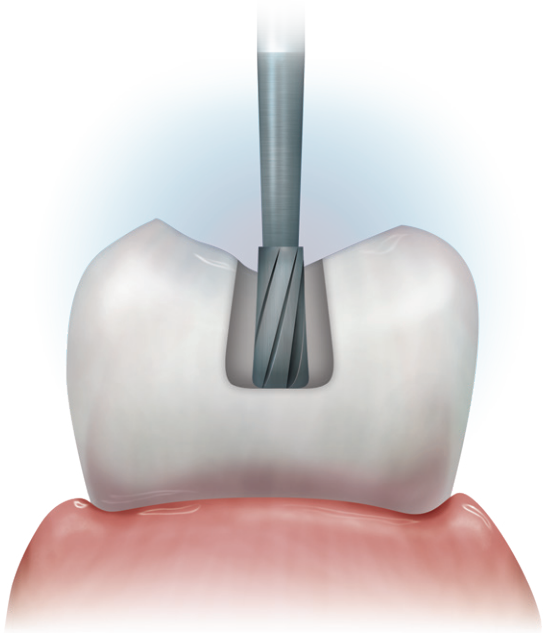

TRADITION

Start the ideal prep with the 330...

INNOVATION

...finish it with the 330RGS

- Preserves convergency
- Creates flat walls
- Ideal length to refine entire wall with cutting surface
- Single-piece carbide construction prevents head separation
- Rounded internal line angles to reduce stress and facilitate placement
