BRASSELER USA®

Dentistry's leader in bioceramic innovation brings you a new solution for your pediatric pulp needs...

ENDOSEQUENCE®
BC PEDIATRIC PUTTY

Utilizing Brasseler's bioceramic knowledge, new EndoSequence Pediatric Putty has all of the same advantages as our wide-range of bioceramics.

- Highly biocompatible and osteogenic for superior healing
- Highly radiopaque and hydrophilic
- Ultra-small particle size for superior handling
- Bonds to dentin by leveraging the natural dentin moisture
- Antibacterial with a high alkaline pH

BC Pediatric Putty Bulk
6 Syringes (.5g)

Upon switching to Brasseler's Pediatric Putty, users report:

- ✓ Easy to use with no mixing required
- ✓ Packs easily with a damp cotton pellet
- ✓ Works exceptionally well for pulpotomies, especially when used in conjunction with BC Liner™ to add a layer of protection over the putty
